

Translation

Professional interpreter services can increase delivery of health care to limited-English-speaking patients.

**£1,064,459
SAVING**

Translation services allow for better communication which is the most effective way for care provision, minimising legal risk of misinterpretation of important information and ultimately provides a trusted, reliable service for patients. For an average Trust, the savings break down is as follows:

£

Bedside consultations per annum – LEP* = £74,579

£

LEP patients, per annum per average Trust = £525,600

£

LEP re-admission per annum, based on average stay = £464,280

%

5% more likely for LEP patients to require re-admission

*LEP = Limited English Proficiency
